No problem. I wasn't sure- it never hurts to double check!

PSEMP Marine Birds and Mammals Workgroup,
Please find attached, recommendations for PBDE monitoring that a subset of PSEMP workgroup members helped pull together. This effort was led by EPA. Thank you to everyone who contributed, in particular Lynne Barre, Teresa Mongillo, Andy James and Sandie O'Neill.
Recommendations are quite consistent with the marine mammal monitoring gaps and priorities.
Best,
Nathalie

Hi Andy and Nathalie,

Would you two please share the PBDE monitoring recommendation two-pager with your respective PSEMP groups?

Thanks!
